Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Masini (6,500,179).

With respect to claim 13, Masini discloses a total knee replacement cutting guide (102) for forming a cut on a bone in preparation to receive a total knee joint replacement component comprising a guide member (120,122,124,126) having a body configured and dimensioned for attachment to a side surface of an end portion of the bone (130) free of an extramedullary or intramedullary alignment rod; and at least one guide surface (106,108,110,112) extending from one side of the guide member to an opposite side of the guide member, the at least one guide surface configured and dimensioned for engagement with a cutting tool (114) to thereby direct the cutting tool in making only a portion of the cut surface.

With respect to claims 14-18, Masini discloses all the limitations, as best seen in FIGS. 1-8, and as set forth in column 3, lines 1-67, column 4, lines 1-67.

With respect to claims 1-12, 19-30, the method steps, as set forth, would have been inherently carried out in the operation of the device, as set forth above.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
